Source: <http://www.4shared.com/>

Please note that some of these numbers are easier to find than others, so some of these are based on news reports and not official company tallies. All stats are linked to their source unless it was sent to me directly from the company. It is also difficult, at times, to distinguish monthly users from total user accounts. In other words: This is the best I can find, but I don't guarantee anything.

Please note that some of these numbers are easier to find than others, so some of these are based on news reports and not official company tallies. All stats are linked to their source unless it was sent to me directly from the company. It is also difficult, at times, to distinguish monthly users from total user accounts. In other words: This is the best I can find, but I don't guarantee anything.

Please note that some of these numbers are easier to find than others, so some of these are based on news reports and not official company tallies. All stats are linked to their source unless it was sent to me directly from the company. It is also difficult, at times, to distinguish monthly users from total user accounts. In other words: This is the best I can find, but I don't guarantee anything.

Please note that some of these numbers are easier to find than others, so some of these are based on news reports and not official company tallies. All stats are linked to their source unless it was sent to me directly from the company. It is also difficult, at times, to distinguish monthly users from total user accounts. In other words: This is the best I can find, but I don't guarantee anything.

MyFitnessPal

Please note that some of these numbers are easier to find than others, so some of these are based on news reports and not official company tallies. All stats are linked to their source unless it was sent to me directly from the company. It is also difficult, at times, to distinguish monthly users from total user accounts. In other words: This is the best I can find, but I don't guarantee anything.

Please note that some of these numbers are easier to find than others, so some of these are based on news reports and not official company tallies. All stats are linked to their source unless it was sent to me directly from the company. It is also difficult, at times, to distinguish monthly users from total user accounts. In other words: This is the best I can find, but I don't guarantee anything.

Weishi

weishi.com

Please note that some of these numbers are easier to find than others, so some of these are based on news reports and not official company tallies. All stats are linked to their source unless it was sent to me directly from the company. It is also difficult, at times, to distinguish monthly users from total user accounts. In other words: This is the best I can find, but I don't guarantee anything.
